

# ALLIANT 3

Acquire complex, full lifecycle, enterprise-wide IT solutions quickly, securely, and at scale

22nd Century Technologies, Inc.

Serving Federal, State, and Local Governments since 1997

Approved large business vendor

We enable mission-critical IT modernization across U.S. DoW and federal civilian agencies. With proven global execution, we deliver secure, scalable solutions spanning the full lifecycle of digital transformation, cloud, cybersecurity, infrastructure, and enterprise modernization since 1997.

## MISSION FOCUSED IT INTEGRATION & SERVICES

Because mission success depends on systems that work together, securely and without failure.

### Predict

Anticipate risk, performance issues, and mission impact before they occur.

### Prevent

Stop disruption through intelligent design and proactive operations.

### Protect

Defend missions, data, and operations at all times, across all domains.

## CORE CAPABILITIES

### + Digital Transformation & IT Modernization

- Agile delivery, DevSecOps, and product-centric execution
- AI-enabled innovation, automation, and rapid prototyping
- Low-Code / No-Code platforms to accelerate mission outcomes
- ERP and mission application modernization across legacy and cloud environments

### + Cloud & Infrastructure

- Cloud strategy, migration, and managed services
- Scalable infrastructure and secure hosting environments
- Hybrid cloud architectures across AWS, Azure, Google Cloud, and on-prem
- Cloud-adjacent and cloud-direct connectivity for mission workloads

### + Cybersecurity & Zero Trust

- Managed Security Services and SOC support
- Vulnerability assessments, identity, and secure access controls
- Integrated cloud, network, and infrastructure security
- Zero Trust architecture design, implementation, and operationalization

### + Managed Services & Workforce Solutions

- 24x7 proactive IT and network operations support
- Remote helpdesk/service-desk, service assurance, and performance monitoring
- IT staffing, cleared workforce, and surge support
- Contact center, operations management, and CX enablement

### + AI-Enabled Operations & Intelligent Automation

- Proactive network and performance monitoring
- AI-driven anomaly detection and predictive insights
- Automated remediation and self-healing capabilities
- Unified "single pane of glass" visibility across IT, network, cloud, and edge

### + Specialized Advisory & Mission Enablement

- IT strategy, architecture planning, and governance
- Risk management, compliance, and audit readiness
- Program execution, portfolio rationalization, and modernization roadmaps
- Partner and ecosystem integration to accelerate delivery

# Why Customers Choose Us

Because missions demand more than IT delivery

*Alliant 3 streamlines IT procurement, helping agencies avoid duplication and reduce administrative costs*

- Mission-First Mindset:**  
We align technology to operational outcomes, not tools or trends.
- Security by Design:**  
Cyber, compliance, and resilience embedded from day one.
- End-to-end Ownership:**  
From strategy and implementation through operations and sustainment
- Global Delivery Experience:**  
Trusted execution across Europe, Africa, and complex OCONUS environments
- Proven Federal Execution:**  
Decades of delivery across DoW, civilian, and SLED environments.
- Cleared, Scalable Workforce:**  
Rapid access to cleared talent when and where missions require it.
- Vendor-Agnostic Solutions:**  
Best-fit technologies tailored to mission needs - not product bias.

## WHO WE SERVE

Trusted across defense, diplomacy, and civil agencies

- Department of War & DISA
- Department of State & Diplomatic Missions
- Federal Civilian Agencies
